Interpreting language-learning data Jul 04 2020 This book provides a forum for methodological discussions emanating from researchers engaged in studying how individuals acquire an additional language. Whereas publications in the field of second language acquisition generally report on empirical studies with relatively little space dedicated to questions of method, the current book gave authors the opportunity to more fully develop a discussion piece around a methodological issue in connection with the interpretation of language-learning data. The result is a set of seven thought-provoking contributions from researchers with diverse interests. Three main topics are addressed in these chapters: the role of native-speaker norms in second-language analyses, the impact of epistemological stance on experimental design and/or data interpretation, and the challenges of transcription and annotation of language-learning data, with a focus on data ambiguity. Authors expand on these crucial issues, reflect on best practices, and provide in many instances concrete examples of the impact they have on data interpretation.

The Cnidaria, Past, Present and Future May 14 2021 This volume presents a broad panorama of the current status of research of invertebrate animals considered belonging to the phylum Cnidaria, such as hydra, jellyfish, sea anemone, and coral. In this book the Cnidarians are traced from the Earth's primordial oceans, to their response to the warming and acidifying oceans. Due to the role of corals in the carbon and calcium cycles, various aspects of cnidarian calcification are discussed. The relation of the Cnidaria with Mankind is

approached, in accordance with the Editors' philosophy of bridging the artificial schism between science, arts and Humanities. Cnidarians' encounters with humans result in a broad spectrum of medical emergencies that are reviewed. The final section of the volume is devoted to the role of Hydra and Medusa in mythology and art.

Experiencing Digital Storytelling Aug 17 2021 El taller de relato digital (RD) tiene por objetivo primordial estimular las capacidades creativas de los alumnos en el ámbito de la narrativa tradicional para elaborar historias en formato digital. El relato digital (RD), que surge como fusión entre storytelling y los medios digitales, se ha convertido recientemente en una herramienta educativa importante. No obstante, storytelling ha sido desde siempre una actividad que todos hemos empleado con nuestros hijos a través de la cual logramos apaciguarlos o simplemente dormirlos, y cuanto más motivador ha sido el relato, tanto mayor ha sido nuestro éxito.

Research Trends in Intercultural Pragmatics Jul 16 2021 This volume looks at current issues in Intercultural Pragmatics from an applied perspective. The content is organized in three sections that encompass the primary applications of intercultural exchanges: the linguistic and cognitive domain, the social and cultural domain, and the discourse and stylistics domain. The chapters analyze real language situations in English, Russian, Chinese, Portuguese, Spanish, Greek, Filipino or Polish.

Professional Standards for Educational Leaders Jan 10 2021 Unpack the standards and build a plan for leading learning Evidence increasingly points to a direct link between the curriculum leadership provided by educational leaders and the overall effectiveness of schools. Professional Standards for Educational Leaders introduces the foundations of the recently revised professional educational leadership standards and provides an in-depth explanation and application of each one. Written by the primary architect of PSEL, educational leadership expert Joseph F. Murphy, this authoritative guide to understanding and applying the standards explores the new emphasis on: Leadership of learning, school culture, and diversity Values, ethics, and professional norms of educational leadership Teacher quality, instruction, and caring support

ELT Revisited Sep 17 2021 This volume brings together selected papers presented during the 9th International Conference of the Association of Czech Teachers of English, titled "Teaching for Tomorrow" and hosted by the English Department of the Faculty of Science, Humanities and Education at the Technical University of Liberec, Czech Republic. The conference brought together English Language Teaching (ELT) professionals from primary, secondary and tertiary education to discuss a variety of English as a Foreign

Language (EFL)-related topics, ranging from reports on language research to viewpoints and insights on classroom practice. The contributions are grouped into three sections: a) Focus on Selected Language Topics, b) Increasing Learner Autonomy and c) Innovative Teaching English as a Foreign Language (TEFL) ideas. Papers were carefully chosen in order to appeal to a broad audience. Consequently, there are articles which have a mainly theoretical bent and those which have a more practical leaning. Although the conference was hosted in the Czech Republic and the majority of participants were from this country, the book is relevant to any context where English is taught as a foreign or second language. Therefore, teachers, advanced students of English, language researchers, and, indeed, anyone engaged in the EFL profession will find this collection both educational and thought-provoking.

Expatriates and Managing Global Mobility Jun 02 2020
Multinational enterprises continue to rely heavily upon expatriates as part of their global workforce. These expatriates, whose exact employment contract may take different forms, are assigned to help them develop global skills as well as to foster knowledge transfer. But managing this expatriate workforce is extremely complex, requiring a questioning of assumptions and sensitivity to new social and cultural dynamics. This book sets out to examine the problem of expatriate management through an I/O Psychology lens. Each chapter draws upon the expertise of scholars from around the world to provide insights into the latest research findings and remaining needs, pertaining to a wide variety of issues. The contributors of this book review the current state of the research of the issue at hand and then make recommendations for where the new frontiers of the research should be in the coming decades. This volume covers four sets of issues pertaining to expatriate management and global mobility in depth. First, the different decision points organizations must make about assigning someone to an overseas location for some period of time; second the different categories of employees in the multinational corporation and their unique characteristics and challenges; third, the various issues and implications of managing a globally mobile workforce; and fourth, the unique contexts of global mobility. Overarching future research themes are identified that lay out the research agenda for the coming decades. By bringing together key research, this book aims to help I/O psychologists understand, explore, and identify new ways of contributing to the understanding of the issues involved in managing an expatriate workforce. Incorporating state-of-the art I/O psychology research in this unique context

bears the promise of yielding important new paradigms and practices.

Quagga and Zebra Mussels May 02 2020 The introduction and rapid spread of two Eurasian mussel species, *Dreissena polymorpha* (zebra mussel) and *Dreissena rostriformis bugensis* (quagga mussel), in waters of North America has caused great concern among industrial and recreational water users. These invasive species can create substantial problems for raw water users such as water treatment facilities and power plants, and they can have other negative impacts by altering aquatic environments. In the 20 years since the first edition of this book was published, zebra mussels have continued to spread, and quagga mussels have become the greater threat in the Great Lakes, in deep regions of large lakes, and in the southwestern United States. Quagga mussels have also expanded greatly in eastern and western Europe since the first book edition was published. *Quagga and Zebra Mussels: Biology, Impacts, and Control, Second Edition* provides a broad view of the zebra/quagga mussel issue, offering a historic perspective and up-to-date information on mussel research. Comprising 48 chapters, this second edition includes reviews of mussel morphology, physiology, and behavior. It details mussel distribution and spread in Europe and across North America, and examines policy and regulatory responses, management strategies, and mitigation efforts. In addition, this book provides extensive coverage of the impact of invasive mussel species on freshwater ecosystems, including effects on water clarity, phytoplankton, water quality, food web changes, and consequences to other aquatic fauna. It also reviews and offers new insights on how zebra and quagga mussels respond and adapt to varying environmental conditions. This new edition includes seven video clips that complement chapter text and, through visual documentation, provide a greater understanding of mussel behavior and distribution.

Prioritization, Delegation, and Assignment Dec 29 2019 Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination is the only review book on the market with a focus on prioritization and management of care—just like the current NCLEX Examination itself! The workbook's unique approach establishes your foundational knowledge and then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. It offers unique preparation for the NCLEX

Examination and effectively equips you to practice in today's fast-paced healthcare environment. UNIQUE! Emphasis on the NCLEX Management-of-Care Focus: LaCharity is the only workbook available that focuses on the NCLEX Exam's management-of-care focus. No other book on the market addresses the heavy management-of-care emphasis - consisting of prioritization, delegation, and patient assignment - of the current NCLEX Examination (17-23% of the 2013 NCLEX-RN Exam). Graduating seniors report that LaCharity has been invaluable in preparing them to pass the NCLEX Exam and enter into practice. UNIQUE! Three-Part Organization: The book consists of three parts, each of which builds on the previous one: . Part 1: Introduction; Part 2: Prioritization, Delegation, and Assignment in Common Health Scenarios; Part 3: Prioritization, Delegation, and Assignment in Complex Health Scenarios. This organization establishes foundational knowledge and then provides exercises of increasing difficulty to help students build confidence in their prioritization, delegation, and patient assignment skills. It also helps students move from passing the NCLEX-RN Exam to "hitting the ground running" as they transition into clinical practice. Part 1: Introduction: Part 1, consisting of a chapter by delegation expert Ruth Hansten, provides guidelines for prioritization, delegation, and patient assignment decisions. The Introduction provides a concise, practical foundation on which Parts 2 and 3 build. Part 2: Prioritization, Delegation, and Assignment in Common Health Scenarios: Organized by body system, the chapters in Part 2 begin to give students practice in applying the principles from Part 1 to relatively straightforward scenarios involving single patients or simple patient assignments. Straightforward NCLEX-style multiple-choice, multiple-select, ordering, and short-answer questions help students develop and build confidence in prioritization, delegation, and patient assignment skills while working within

the confines of relatively simple health scenarios. Part 3: Prioritization, Delegation, and Assignment in Complex Health Scenarios: Unfolding cases in Part 3 gradually immerse students in realistically complex clinical situations involving patients with complicated health problems or challenging assignment issues. These unfolding cases build on the skills learned in Part 2 to equip students to make sound decisions in realistic, complex health scenarios involving complicated health problems and/or challenging patient assignment decisions. The "unfolding" nature of each case realistically demonstrates the progression of typical health scenarios and helps students learn to "think like nurses" by developing what Benner (2010) calls "clinical imagination." Answer Key: The in-depth Answer Key at the back of the book provides not only the correct answer but also a detailed rationale and an indication of the focus of the question, whether prioritization, delegation, supervision, or patient assignment. Detailed rationales encourage formative assessment, in which students learn as much from answering incorrectly as they do from answering correctly. Expanded content focus to include psychiatric/mental health, OB/maternity, and pediatrics along with med-surg areas New chapters on infection control and obstetrics

Vis-à-vis Vs. Mixed Dock Door Assignment: a Comparison of Different Cross Dock Layouts Nov 27 2019

Writing Spaces 1 Dec 21 2021 Volumes in *Writing Spaces: Readings on Writing* offer multiple perspectives on a wide-range of topics about writing, much like the model made famous by Wendy Bishop's "The Subject Is . . ." series. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about

developing nearly every aspect of craft of writing.

Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

Contexts, Practices and Challenges: Critical Insights from Continuing Professional Education Jun 14 2021 Lifelong learning has become essential not only for professionals, but also for those they serve. Continuing professional education (CPE), an umbrella term used to describe the continuum of formal, nonformal, and informal learning opportunities that enable practicing professionals to continue to learn and to maintain professional competence across their careers, is the focus of this collection. The volume explores, analyzes, questions, and critiques CPE trends and issues across a variety of contexts, and it highlights new thinking and developments to assist providers and practitioners to re-envision their roles and set new directions in the field of CPE. This collection is inspired by the early seminal works of Cyril Houle who advocated that educational researchers and providers of CPE should listen to the experience of professionals as a basis for supporting their professional learning. This is the 151st volume of the Jossey Bass series *New Directions for Adult and Continuing Education*. Noted for its depth of coverage, it explores issues of common interest to instructors, administrators, counselors, and policymakers in a broad range of education settings, such as colleges and universities, extension programs, businesses, libraries, and museums.
