Not a Fan has already called more than one million readers to consider the demands and rewards of being a true disciple--moving from fan to follower in their relationship with Jesus. After years of serving God, pastor and bestselling author Kyle Idleman had a startling revelation: for too long, he had been living as a fan of Jesus; someone who tried to make Christianity seem as appealing, comfortable, and convenient as he possibly could to others. Idleman decided something had to change--he needed to embark on the journey of becoming a completely committed follower of God, not just a fan. Fans want to be close enough to Jesus to get all the benefits, but not so close that it requires sacrifice, while followers are all in and completely

committed to Christ. Not a Fan gives you the tools you need to determine exactly where you stand when it comes to your relationship with Jesus. No matter where you are in your walk with Christ, Not a Fan calls you to consider the demands and rewards of being a true disciple. With frankness and a touch of humor, Idleman invites you to:

- Examine your relationship with God
- Determine if you're following Jesus or just following the rules
- Pray the way Jesus prayed
- Start truly living for the one who gave his all for you

This expanded and updated version of Not a Fan also includes a new introduction and an entirely new chapter about how to practically live out the book's core message. Join Idleman as he challenges you to take an honest look at your relationship with Jesus and discover what it really means to be a follower.

Now, from mathematician and accomplished science writer Ian Stewart, comes what Nature calls "a superb sequel." Through larger-than-life characters and an inspired story line, *Flatterland* explores our present understanding of the shape and origins of the universe, the nature of space, time, and matter, as well as modern geometries

and their applications. The journey begins when our heroine, Victoria Line, comes upon her great-great-grandfather A. Square's diary, hidden in the attic. The writings help her to contact the Space Hopper, who tempts her away from her home and family in Flatland and becomes her guide and mentor through ten dimensions. In the tradition of Alice in Wonderland and The Phantom Toll Booth, this magnificent investigation into the nature of reality is destined to become a modern classic. Charles Marion Thomas, Jr. gives personal testimony of how he dealt with finding his independence after several years, being a caretaker for his parents as their health began to

fail, and speaks candidly about this reality of epic struggle he endured subsequently, leading to a lengthy period of chronic homelessness and living out of his car. Charles believed that when his parents died he would serve the Lord in full-time ministry while still being homeless. To understand what led to his story, he explains to the best of his knowledge, these events as they happened. His initial experience began when his mother had her stroke in 2002 while she was in school and suffered a brain aneurysm while in class on the left side of the brain that paralyzed the right side of her body. Then later his father died from a heart attack in the house in 2006, and the challenge presented itself. Charles decided to put his life on hold to care for them and run the house. While still lacking stable and appropriate housing, he became homeless through no fault of his own but to serve and honor his parents. In the end, Charles explains how the Lord brought him out of a long journey of homelessness.
