Negotiation

Madness Dec 19 2021 While a number of books have been written on negotiating techniques, such as the famed Getting to Yes and Getting Past No, these have all assumed that the negotiating process is all about both sides having to reach a compromise where neither side achieves all they intended. The reality in life for those who really understand how the world works, is that negotiations are almost always one sided and

dominated by those who understand the issues involved.

Unlike other texts which focus on well-worn platitudes, on which where one side is supposed to continue the arguments until the other side is reduced to capitulation through exhaustion, Negotiation Madness approaches the subject from the side of the person who will always come out of the process with the advantage and sets out the ways in which, and how this is achieved.

Punctuated with practical examples, the work concludes with practice sessions which can be duplicated in both corporate and

private settings, allowing individuals or management to evaluate their associates skills.

INTERMEDIATE ACCOUNTING WITH AIR FRANCE-KLM 2013 ANNUAL

REPORT Aug 15 2021 Financial accounting is undergoing a period of unprecedented change. The FASB and IASB have been working together to issue converged accounting standards that will dramatically change key reporting areas, and more generally have sought to converge accounting standards over time. However, at present the convergence process appears to have stalled with respect to new standards, and it is not clear when, if ever, IFRS will be fully incorporated into U.S. GAAP. So, while there is considerable overlap between

U.S. GAAP and IFRS, important differences between U.S. GAAP and IFRS will remain for the foreseeable future. To help instructors deal with this very challenging environment, the Spiceland team is committed to providing current, comprehensive, and clear coverage of intermediate accounting, and the eighth edition reflects this.
