British and American Letter Manuals, 1680-1810, Volume 4 Jul 21 2022 During the 18th

century, letter manuals became the most popular form of conduct literature. They were marketed to and used by a wide spectrum of society, from maidservants and apprentices, through military officers and merchants, to gentlemen, parents and children. This work presents the most influential manuals from both sides of the Atlantic.

Artes Orandi Dec 22 2019 Apparatus a la fin du XIIe siecle, les "artes praedicandi" sont des traites qui presentent une methode et des techniques de predication: ils enseignent les differentes facons de composer un sermon et de le prononcer. Ce genre evolue au cours du Moyen Age en fonction du temps et du public auquel la predication est destinee. M.G. Briscoe s'attache particulierement aux problemes critiques souleves par ces textes. Beaucoup d'entre eux sont anonymes ou sont faussement attribues a des "autorites", parfois reunis en collection ou avec d'autres instruments de travail des predicateurs. La langue employee, le latin, est influencee par la langue vernaculaire, au fur et a mesure que l'on avance dans le Moyen Age. La tradition manuscrite et textuelle de ces traites a ete jusqu'ici peu etudiee. Ce sont cependant des textes fondamentaux pour la connaissance de la rhetorique medievale. Outre les historiens de la predication et de sa pratique, ils interesseront specialement ceux qui etudient la theologie pastorale et l'histoire religieuse du bas Moyen Age. Les "artes orandi" sont un genre litteraire qui n'a attire l'attention des erudits qu'au XXe siecle. C'est que le Moyen Age ne connait pas ce terme. On peut definir l'"ars orandi" comme un genre qui traite de la priere comme une activite requerant une strategie verbale consciente. Et, au Moyen Age, la priere, activite commune ou privee, verbale ou silencieuse se distingue de la meditation, toujours privee et silencieuse. Le genre a ses racines dans l'Antiquite chretienne et va, a partir du XIIe siecle, se systematiser et se diversifier: traite qui applique l'analyse scolastique et les regles de la rhetorique a la priere destine a un public universitaire, traites de prieres destines aux ordres religieux et, a partir du XIVE siecle, des "artes orandi" destines a la devotion privee des laics. En l'absence d'un releve des "artes orandi" conservees, B.H. Jaye en dresse une premiere liste non exhaustive.

Writing Manuals for the Masses Jun 27 2020 This open access collection of essays examines the literary advice industry since its emergence in Anglo-American literary culture in the mid-nineteenth century within the context of the professionalization of the literary field and the continued debate on creative writing as art and craft. Often dismissed as commercial and stereotypical by authors and specialists alike, literary advice has nonetheless remained a flourishing business, embodying the unquestioned values of a literary system, but also functioning as a sign of a literary system in transition. Exploring the rise of new online amateur writing cultures in the twenty-first century, this collection of essays considers how literary advice proliferates globally, leading to new forms and genres.

Handbook of Evidence-Based Treatment Manuals for Children and Adolescents May 19 2022 With the advance of evidence-based practice has come the publication of numerous dense volumes reviewing the theoretical and empirical components of child and adolescent treatment. There are also a variety of detailed treatment manuals that describe the step-by-step procedures to guide ongoing research and practice. The second edition of Craig Winston LeCroy's Handbook of Evidence-Based Child and Adolescent Treatment Manuals is a forceful combination of the two approaches, as he gathers fifteen varied treatment manuals and brief summaries of the research supporting each to ensure that practitioners will truly understand how to implement the treatments they are using. A completely revised and expanded edition of the handbook's first edition, this is an essential guide to some of the best programs for helping children and teens. Each chapter begins with an explanatory section that discusses the theoretical and empirical underpinnings of the programs. The treatment manual follows, leading readers through sessions with specific details about conducting the treatment that have been refined and improved through extensive testing and research. Organized into three sections: the major clinical disorders, social problems confronting children and teens, and preventive interventions the Handbook brings together some of the most esteemed researcher-practitioners in the child and adolescent field. The book presents an impressive variety of innovative treatment programs and techniques including: the SiHLE program (intended to prevent problems confronting children and teens, and preventive interventions the Handbook brings together some of the most esteemed researcher-practitioners in the child and adolescent field. The book presents an impressive variety of innovative treatment programs and techniques including: the SiHLE program (intended to prevent HIV through education and self-esteem building), the Children of Divorce Intervention Program (a therapy for younger children stressing resilience and skill-building), and Strengths Oriented Family Therapy (which reaches out to substance-involved adolescents and their families). The Handbook of Evidence-Based Child and Adolescent Treatment

Manuals is an indispensable reference for researchers, graduate students, and practitioners working with children and adolescents in a multitude of settings, from schools and juvenile correction centers to group homes and family service agencies.

Greek and Roman Military Manuals Sep 30 2020 This volume explores the enigmatic primary source known as the ancient military manual. In particular, the volume explores the extent to which these diverse texts constitute a genre (sometimes unsatisfactorily classified as 'technical literature'), and the degree to which they reflect the practice of warfare. With contributions from a diverse group of scholars, the chapters examine military manuals from early Archaic Greece to the Byzantine period, covering a wide range of topics including readership, siege warfare, mercenaries, defeat, textual history, and religion. Coverage includes most of the major contemporary siege manual writers, including Xenophon, Frontinus, Vegetius, and Maurice. Close examination of these texts serves to reveal the complex ways in which ancient Greeks, Romans, and Byzantines sought to understand better, and impose order upon, the seemingly irrational phenomenon known as war. Providing insight into the multifaceted collection of texts that constituted military manuals, this volume is a key resource for students and scholars of warfare and military literature in the classical and Byzantine periods.
