*Finding the Perfect Wave Sep 17 2021 'Alli...there's been an accident.' Her voice grew silent. 'What?' I began to hear sobbing coming from the other end of the line. A sick feeling overtook my whole body. The fear of what I was about to hear became a stronger reality with each of Sara's sobs. 'There was a really bad car accident, and Alli...' She paused and began to cry louder. 'H-He's...gone. He's dead.' Seventeen-year-old Alli Whitton's life just can't get any better. She's one of the best surfers in Huntington Beach, spending every day side by side with her boyfriend, Todd, and just days away from entering the halls of her senior year in high school. Then her dad is transferred miles away from her beloved ocean to the middle of the sweltering Arizona desert, and Alli's perfect life is threatened. It takes an uphill turn, however, when she meets Jake, the school's handsome soccer star, whose sandy blond hair and sharp green eyes remind her how to smile once again. All she needs to do is make it ten long months; then she's free to return to California. But when an unthinkable tragedy occurs, Alli is forced into mourning the loss of a dear loved one, leaving her suffering through the grieving process in a new school with none of her best friends to comfort her. Cheri Miklich's *Finding the Perfect Wave* is a romantic coming-of-age drama where readers will learn, along with Alli, to smile and laugh even amidst life's darkest hours. A new romance blooms, hope and*

faith fight to prevail, and a strong realization of passion for her dreams surfaces as she discovers who she is meant to be. Join Alli as she enters the waters of life and seeks to find the perfect wave!

Old House Interiors Dec 09 2020 National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

Death of a Coast Watcher Aug 17 2021 In 1943 on Bougainville Island, New Guinea, a Japanese officer beheads Hugh Rand, an Australian spy — a coast watcher. The spectators include villagers he terrorised as his mind frayed under the stress of pursuit by soldiers and their hounds. Rand's influence transcends his death. For decades he plagues characters who strive to cope with him and one another in New Guinea, the Gilbert Islands, Australia and Japan. Who misperceives? Lies? Self-destructs? Suffers? Loves? The layers unfold as the author entices us through cultural, historical and intellectual curtains, deep into minds and relationships disturbed by the Pacific war and Rand's legacy.

An Island in the Lake Oct 19 2021 Pat and Ruth Beckett have retired from Sydney to the sublime landscape of the far south coast. To their garden, to their books, to their island in the lake. They want no part of the madness of Harbourside Grammar, monstrous celebrity billionaire Buckets Barrington, or the sinister Magnareach Corporation. But the madness wants a part of them.

Broken Identity Aug 05 2020 Drake Pearson, a narrow-minded 18-year-old barely enduring Missouri's heat, is tired of feeling empty. Living conditions are about as cozy as a cardboard box, on account of his alcoholic father who can find nothing better to do than argue relentlessly with him. When Drake thinks he can't take another blow, he is reminded daily of his mom who vanished twelve years ago. And now there's a dead body. After a terrible accident turns into a protected secret, a twisted string of events brings Drake miles away from home to an elderly man's front door. Every promising opportunity also brings new doubts and temptations to run away—this time for good. When the secret he has kept locked away threatens to reveal itself, Drake knows he must shield it with his very life, even if the love he has been shown undeservingly is about to be destroyed.

Adventure Guide Grenada, St. Vincent and the Grenadines Jul 16 2021 "My wife and I took this book with us on a recent Yankee Clipper cruise from Windjammer. The book was quite useful with good descriptions (usually a paragraph or two) of the accommodations and restaurants on the islands we visited

(Grenada, Mayreau, Bequia, Carriacou, Tobago Cays). The authors were very up front about the experiences they DIDN'T like which helped us to avoid frustration. The book also had a nicely organized table of contents which helped navigate the book quickly... This is an excellent guidebook for the area and is highly recommended." -- Matthew Clark (Amazon reviewer).

A guide to St Vincent, Grenada and the Grenadines. It covers Mustique, Bequia, Palm Island, Tobago Cays, Carriacou, Mayreau, Petit St Vincent, St Vincent and Grenada, at the southern end of the Caribbean arc, just below St Lucia. St Vincent has the oldest botanical gardens in the Americas; on Bequia, some islanders still harpoon whales as their ancestors did; Grenada has pristine reefs and abundant natural beauty; and tiny Mustique, home to countless celebrities, has verdant mountains. The series of "Adventure Guides" are about living more intensely, waking up to your surroundings and truly experiencing all that you encounter. Each book offers a mix of practical travel information along with activities designed for everyone, no matter what their age or ability. Comprehensive background information - history, culture, geography and climate - presents a knowledge of each destination and its people. Regional chapters take you on an introductory tour, with stops at museums, historic sites and local attractions. The volumes also cover: places to stay and eat; transportation to, from and around your destination; practical concerns; useful websites; e-mail addresses; and tourism contacts. Detailed regional and town maps feature walking and driving tours. "This guide is immediate and thorough; it give a host of places and activities that could fulfill even the most bored tourist's

desires. The book is salted with the kind of personal experience that makes visiting these islands so special. They take us away from palm beaches, island vistas and rugged emerald mountains and put us in touch with the people who inhabit these beautiful places. From fishermen in Barrouallie to Rastas in the Port Elizabeth market and a botanist in St. George's, we get a sense of the lives that entwine to make up the fabric of these islands. Also, each section begins with a history of the place at hand, so important to understanding the southern Windwards. The authors have produced a journeyman labor, a product of discernment and enterprise tempered with warmth and humor. Those of us who have seen the southern Windwards as a special place for so long have reason to be thankful and relieved." Paul Tyler, Caribbean Compass

Electrical World Sep 25 2019

In Parallel Worlds Jan 28 2020 "Set in the sleepy sea side town of Gopalpur-on-Sea on the East Coast of India, this is the story of the mock-colonial world of the Coromandel Villa Hotel, whose owner, Arjun Roy tried to escape from the urban life of Calcutta, and his girl Friday Jennifer Da Costa. The story goes back in time and place to trace the early childhood years of Arjun and his beautiful older sister Bula, as well as the unhappy past of Jennifer in Calcutta. It is also the story of Shanti the demented beggar girl who scavenges food from the hotel and of Feni, her foster mother who picks rags for a living and who had been branded a 'witch' in her native village. Gopalpur is a refuge for them too. On the "accursed day" Appaya the grizzled old cook of the Coromandel Villa Hotel finds a plastic doll on the beach, which he brings back as it might make a present for his daughter back home. This seemingly irrelevant event, sets in motion, in his mind, a chain of events that will eventually change the Coromandel Villa Hotel for ever... "

The Tiny House Handbook Dec 01 2022 "This thought provoking book is a great resource for anyone considering

joining the tiny house movement. It's all the information you need in one book! The author has done a phenomenal job blending real world experience, data and practical knowledge on all types of tiny homes.” -Corinne Watson, Principle and Co-Founder, Tiny Homes of Maine “Charlie Wing’s very readable Tiny House Handbook leads you through the processes of designing and building a tiny home, with careful attention to all the details, including legal issues, cost estimates, material utilization and foundation options. Charlie is a master at demystifying the seemingly complex process of homebuilding. This book will help you live both comfortably and lighter on the land.” -John S. Crowley, CEO of FACET and Board member, Build It Green Plan, design, and build a tiny house from scratch

The Tiny House Handbook is a comprehensive guide to everything you need to know to construct your very own tiny house. Produced in Charlie Wing’s signature “visual handbook” style and jam-packed with full-color illustrations and diagrams, this book includes step-by-step instructions for building a tiny house as well as information on cost estimating and design requirements. Based on 2018 International Residential Code (IRC) Appendix Q, this book includes sample construction drawings and floor plans for a variety of tiny home styles, including: · Mobile (8'6"-wide trailers and RVs) · Movable (12'-wide, routine transport permit) · Site-built (up to 20' wide) Rather than being just another inspirational collection of tiny home photographs, The Tiny House Handbook constitutes a complete and fulsome reference for anyone seeking to build their own tiny home. From seasoned construction vets to total novices, this book will walk you

through the process of designing and building a tiny house from start to finish.

Built from Scratch Nov 27 2019 One of the greatest entrepreneurial success stories of the past twenty years When a friend told Bernie Marcus and Arthur Blank that “you’ve just been hit in the ass by a golden horseshoe,” they thought he was crazy. After all, both had just been fired. What the friend, Ken Langone, meant was that they now had the opportunity to create the kind of wide-open warehouse store that would help spark a consumer revolution through low prices, excellent customer service, and wide availability of products. Built from Scratch is the story of how two incredibly determined and creative people—and their associates—built a business from nothing to 761 stores and \$30 billion in sales in a mere twenty years. Built from Scratch tells many colorful stories associated with The Home Depot’s founding and meteoric rise; shows that a company can be a tough, growth-oriented competitor and still maintain a high sense of responsibility to the community; and provides great lessons useful to people in any business, from start-ups to the Fortune 500.

10-Minute Energy-Saving Secrets Mar 12 2021 Energy bills are going to be sky-high this year --that is, unless you are prepared! 10-Minute Energy Saving Tips will arm you with hundreds of easy, innovative ways to cut your heating bills (and your cooling bills next summer!). Tips include: Open curtains when the sun comes up to let the sun's energy in, but close them as soon as it gets dark to keep the warm air inside the house. Caulk around any old windows to prevent leaks. Close doors and lower heat in all zones you don't use every day, like the guest bedroom or the

study. Invest in down comforters and wool blankets for the beds and turn your heat down you'll sleep better, and save on heating costs! Buy plastic sheeting and cover very drafty windows. It's inexpensive at the home improvement store, and it can save you a bundle. Replace your old storm door with a new one to prevent drafts. Lower the temperature on your water heater - this also helps to prevent scalding!

Spark Apr 12 2021 A fresh look at electricity and its powerful role in life on Earth When we think of electricity, we likely imagine the energy humming inside our home appliances or lighting up our electronic devices—or perhaps we envision the lightning-streaked clouds of a stormy sky. But electricity is more than an external source of power, heat, or illumination. Life at its essence is nothing if not electrical. The story of how we came to understand electricity's essential role in all life is rooted in our observations of its influences on the body—influences governed by the body's central nervous system. Spark explains the science of electricity from this fresh, biological perspective. Through vivid tales of scientists and individuals—from Benjamin Franklin to Elon Musk—Timothy Jorgensen shows how our views of electricity and the nervous system evolved in tandem, and how progress in one area enabled advancements in the other. He explains how these developments have allowed us to understand—and replicate—the ways electricity enables the body's essential functions of sight, hearing, touch, and movement itself. Throughout, Jorgensen examines our fascination with electricity and how it can help or harm us. He explores a broad range of topics and events, including the Nobel Prize-winning discoveries of the electron and neuron, the

history of experimentation involving electricity's effects on the body, and recent breakthroughs in the use of electricity to treat disease. Filled with gripping adventures in scientific exploration, Spark offers an indispensable look at electricity, how it works, and how it animates our lives from within and without.

Carbon Management in Tourism Aug 24 2019 Climate change is one of the single most important global environmental issues facing the world today and is emerging as a major topic in tourism studies. Tourism is one of the world's largest industries; it both contributes to, and will be notably affected by, climate change. Given the emerging global legal frameworks to reduce emissions of greenhouse gasses, growing costs of carbon and pro-environmentally orientated customers, carbon management in tourism is a necessity. Tourism must take responsive actions to enable travel and tourism to deliver the peak experiences that tourists seek with a lower carbon footprint. Carbon Management in Tourism is the first book devoted to carbon emission reductions and to showcase a wide range of practical mitigation measures. This book provides a comprehensive overview by combining theory and practice of climate change mitigation in global tourism, addressing various levels of scale, such as global, national, and regional tourism systems, as well as individual tourism businesses. It integrates a thorough scientific discussion of the causes of emissions growth, along with an analysis of the major options to reduce emissions, and state-of-the-art carbon management practices. Detailed case studies provide examples of tourism businesses or destinations that have successfully reduced emissions of

greenhouse gasses, with consideration of economic and socio-cultural issues integrated throughout. This timely and important volume is essential reading for undergraduate and postgraduate students as well as academic researchers interested in Tourism, Environmental Management, Geography and Carbon Management.
